Laptop Encryption Acceleration Program (LEAP)

1. Right click on BSDEncrypt.exe and select Run as Administrator.
2. If the User Account Control display box appears, click yes.
3. The following screen will appear;

![Laptop Encryption Acceleration Program (LEAP)](image)

4. Please enter your Full Name, E-mail and Department. You must fill out these 3 fields! The program will not let you proceed until you have done so.
5. Once you have entered your information in the appropriate fields, please click the Start Encryption button.
6. If the tool is able to successfully start the encryption, you will see a success screen similar to the one below.
7. It’s very important that you store your encryption key!
8. You can store your information at the following site
   https://redcap.uchicago.edu/surveys/?s=frPnX2cPHE
9. You can also e-mail the information to encryption@bsd.uchicago.edu. Click the Copy Text button and paste the information into an e-mail.
10. If the tool is unable to encrypt your computer, you will see a screen similar to the one below.
11. If this happens to you, e-mail the information to encryption@bsd.uchicago.edu. Click the Copy Text button and past the information into an e-mail. A representative from the Encryption Team will respond to your e-mail and provide you with further assistance.

12. Click OK

13. Click Exit
